

# PERIOCAMPUS

## FOUNDATION - CROATIA

Theoretical and Hands-on course in  
Foundation Periodontal Therapy

New format, inspiring venue, case-based interactive learning  
and **Periocampus method**® for manual dexterity:  
transforming education in Periodontology.

“If I were to share my vision of Periodontology, I would say that it is the most fascinating and the most essential aspect of dentistry. And while it is very often perceived as extremely complex, in reality it’s quite simple. From here my idea of Periocampus was developed – I wanted to transform Periodontology into something tangible for any dental professional and to do so not by giving recipes, but (mental and manual) tools and the understanding and the knowledge how to correctly and successfully apply them.

To do so, I’ve had to establish an educational method – the method is to learn how to use your hands at the best, with the finest techniques, whilst making sure your hands are following the biological principles, background and knowledge. Because Periodontology is exactly this – a surgical application of pure biology. To be good in Perio means you need to be good in both.

I’ve achieved this myself by living for years fully immersed in Periodontology during my formative education years in London and Gothenburg. From my experience, an intention was born to create an educational campus, not a course, and a community that would be empowered to do Periodontology.

I’ve started this endeavour with a friend, a colleague and a worldwide known clinician and researcher, Cristiano Tomasi from Gothenburg with whom I share the same experiences, passion and vision of Periodontology. We’ve designed an intensive, full-immersion campus for professionals who cannot afford, in time or money, to spend years abroad or within a specialty training. We’ve started in 2012, and 7 years down the road we’re probably the most successful course in Periodontology in Italy, with several international editions under our belt and more than 500 Periocampus Alumni.

Now, it’s time for Zagreb. I’m looking forward to seeing and discussing Perio with all of you in May!”

Prof. Filippo Graziani

# WHAT MAKES PERIOCAMPUS DIFFERENT?

Periocampus is not a course in Periodontology. Periocampus is **a full-immersion campus in Periodontology**. There's certainly an academic ring to it, and for a reason, because Periocampus nurtures the immersive atmosphere one would usually experience at a university campus. Learning and dwelling deeper into Periodontology does not begin and end with each lecture.

The programme of Periocampus is designed in a way that **for 3 days**, from the morning till the evening, **every element is given an educational purpose**. Even the meal-time and breaks are created so **you can learn in an untraditional atmosphere** and be exposed to information that will give you a more comprehensive outlook of Periodontology, the patient and periodontal treatment. **The main goal of Periocampus is to empower clinicians to apply what they've took from Periocampus the moment they get back to their patients in their dental practice.**

Due to its intense, immersive programme, Periocampus connects clinicians that share the same interest and passion for Periodontology - it builds a community.

# | PROGRAMME

Periocampus Foundation Croatia is the Module 1 of the Periocampus education. It's designed to give the knowledge and teach the manual skills to **understand, diagnose and treat periodontal cases with autonomy**.

While Module 1 is fully appropriate for those that are novel to Periodontology, it is also intended for experienced clinicians to build up on their knowledge and practice their dexterity through innovative and unique hands-on practicals of the **Periocampus method**.

The programme focuses on diagnosis, treatment-planning and nonsurgical periodontal treatment around teeth and implants.

To make the learning process efficient, Periocampus teaching is founded on:

- Case-based interactive learning
- Innovative hands-on practical training (Periocampus method)
- Clinical, in-vivo practices

As both the etiology and the pathological impact of periodontitis extend far beyond the oral cavity, Periocampus addresses topics that will improve your clinical competence and may considerably influence the outcome of your treatment. By taking a step forward in education in Periodontology, Periocampus Foundation also teaches nutrition, stress management, patient motivation and the systemic impact of the disease. A unique session about the management of the periodontal patients in the private practice, as well as its marketing is part of the programme as well.

# PROGRAMME

THURSDAY 20 MAY

MORNING

120min PERIODONTITIS		
COFFEE BREAK		
120min DIAGNOSIS	120min PRE-CLINICAL EXERCISES	
BREAK		
90min PRE-CLINICAL EXERCISES	90min DIAGNOSIS	
30min FORUM COMPANY		
BREAK		
120min CLINICAL EXERCISES PROBING IN-VIVO	120min CLASSIFICATION CASE-BASED LEARNING	120min CLINICAL CHARTING
COFFEE BREAK		
60min FORUM COMPANY		
DINNER		

FRIDAY 21 MAY

AFTERNOON

120min <b>CLASSIFICATION</b> <i>CASE-BASED LEARNING</i>	120min <b>CLINICAL CHARTING</b>	120min <b>CLINICAL EXERCISES</b> <i>PROBING-IN-VIVO</i>
BREAK		
120min <b>CLINICAL CHARTING</b>	120min <b>CLINICAL EXERCISES</b> <i>PROBING-IN-VIVO</i>	120min <b>CLASSIFICATION</b> <i>CASE-BASED LEARNING</i>
BREAK		
30min <b>ORAL HYGIENE</b>		
120min <b>INSTRUMENTATION</b> <i>MANUAL DEXTERITY THE PERIOCAMPUS® METHOD</i>	120min <b>RATIONALE OF NON-SURGICAL THERAPY</b> <i>CASE-BASED LEARNING</i>	
COFFEE BREAK		
120min <b>RATIONALE OF NON-SURGICAL THERAPY</b> <i>CASE-BASED LEARNING</i>	120min <b>INSTRUMENTATION</b> <i>MANUAL DEXTERITY THE PERIOCAMPUS® METHOD</i>	
30min <b>FORUM COMPANY</b>		
DINNER		

SATURDAY 22 MAY

60min <b>MOTIVATE THE PATIENT</b>	
120min <b>RATIONALE OF NON-SURGICAL THERAPY</b> <i>CASE-BASED LEARNING</i>	120min <b>INSTRUMENTATION</b> <i>MANUAL DEXTERITY THE PERIOCAMPU<sup>®</sup> METHOD</i>
COFFEE BREAK	
120min <b>INSTRUMENTATION</b> <i>MANUAL DEXTERITY THE PERIOCAMPU<sup>®</sup> METHOD</i>	120min <b>RATIONALE OF NON-SURGICAL THERAPY</b> <i>CASE-BASED LEARNING</i>
BREAK	
120min <b>PERI-IMPLANTITIS</b>	
COFFEE BREAK	
60min <b>PERIOMEDICINE</b>	
60min <b>MANAGEMENT OF PERIODONTAL PATIENTS IN THE PRIVATE PRACTICE</b>	
30min <b>RECAP</b>	

# | THE MINDS BEHIND PERIOCAMPUS

World renowned speakers, clinicians and researchers in Periodontology, Prof. **Filippo Graziani** and Prof. **Cristiano Tomasi** are the founders of Periocampus, one of the most successful educational courses in Italy, with over 500 Alumni that have participated in the 7 years since its foundation. For the first time in Croatia, at *Periocampus Foundation Croatia* they will be joined by selected Croatian speakers, experts in the field of Periodontology.

# | FACULTY

## Filippo **Graziani**

- Full professor in Periodontology - University of Pisa.
- Coordinator of the sub-unit in Periodontology, Halitosis and Periodontal Medicine - University of Pisa, Italy.
- President of the European Federation of Periodontology.
- Visiting Professor in Periodontology - Eastman Dental Institute - University College of London, London, UK.
- Honorary Professor - Faculty of Dentistry, Hong Kong SAR, China.

# | FACULTY

**Darko Bozic**

- Associate professor - School of Dental Medicine University of Zagreb, Croatia.
- President of the Croatian Society of Periodontology.

**Cristiano Tomasi**

- Associate Professor - Sahlgrenska Academy University of Gothenburg, Sweden.
- Visiting Professor – University of Verona, Italy.

# | FACULTY

Matteo **Tonelli**

- Clinical assistant in Periodontology - University of Pisa, Italy.
- Certified in Clinical Periodontology and Implant Dentistry in association with University of Gothenburg, Sweden.

Larisa **Music**

- PhD Candidate in Periodontology -School of Dental Medicine University of Zagreb, Croatia.
- Teaching faculty - School of Dental Medicine University of Zagreb, Croatia.

# | FACULTY

Urska **Marhl**

- PhD Candidate in Periodontology - University of Pisa, Italy.
- Doctor of Dental Medicine - University of Ljubljana, Slovenia.

Marina **Peric**

- PhD Candidate in Periodontology - University of Pisa, Italy.
- Specialist in Periodontology - Université Catholique de Louvain, Belgium.

# REGISTRATION

**The dates:** May, 20 - 22

**The venue:** Amadria Park Hotel Capital, Jurišićeva ul. 22,  
10000, Zagreb, Croatia

**Language:** official languages are English and Croatian

**Opened for:** all clinicians (dentists and dental hygienists) speaking English and Croatian language

**Fee:** 9300 HR Kuna (+25% VAT/PDV) €1230

Included:

- participation in the scientific programme
- surprise soft skills-building workshops
- scientific materials and Periocampus bag
- joint breakfast (May 20)
- lunches, coffee breaks (May 20 - 22)
- cocktail party (May 20)
- dinner (May 21)

Register here: [periocampus.com/croatia-registration](https://periocampus.com/croatia-registration)

Inquiries: [info@periocampus.com](mailto:info@periocampus.com)

\* Participants can book accommodation at the Amadria Park Hotel Capital at a discounted price
