day 4 Wednesday 15th of December

**Posibility to treat Perio Patients,
under the supervision
of the Periocampus Professors.**

Periocampus

Advanced 3.0

Case-based interactive learning, lectures and training through the EASE® method:

Periocampus Advanced is designed for both: dentists and oral hygienists and is divided into two different programs to fit all clinical needs. Choose the journey that best suits your individual needs. The course duration is 3 days, with a fourth optional day (PERIOCAMPUS PATIENTS) for those who wish to apply what they have learned directly in the practice of Prof. Filippo Graziani.

Periocampus

Advanced 3.0

Learning is a continuous process that must be constantly reconsolidated.

Periocampus is not just theory. You will apply all the knowledge you have learned during the course in practical sessions with both instruments and surgical therapy. Periocampus takes a case-based interactive learning approach – all lectures are based on real cases.

Periocampus

Advanced **3.0**

What will you take home?

If you choose
the **Dentist Journey**

you will be able to:

Understand the indications
for periodontal surgical treatment.

Perform effectively the most modern
techniques of periodontal surgery.

Learn which are the most frequent practical errors.

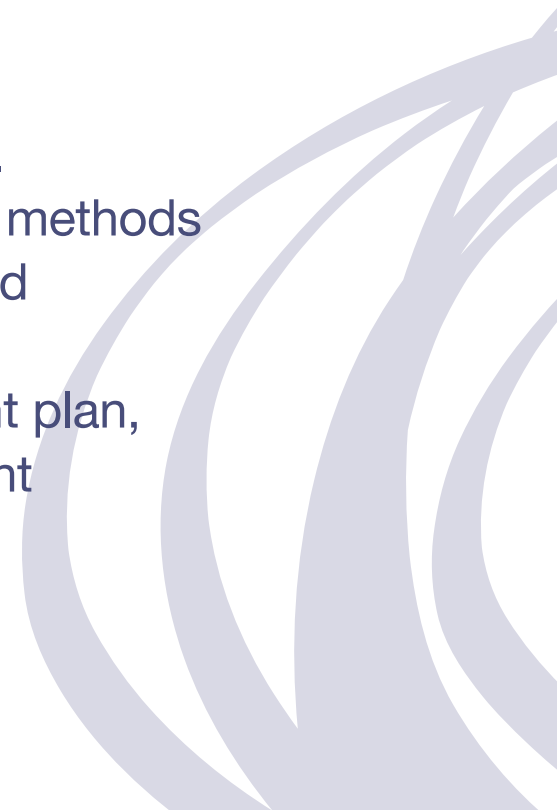

If you choose
the **Dental Hygienist Journey**

you will have the possibility to:

Root surface instrumentation
by perfecting the EASE® method.

Understanding when additional methods
to non-surgical therapy are needed
and how to apply them.

Set up your periodontal treatment plan,
optimize it and motivate the patient
to change his habits.

The venue

Domus Comeliana and Hotel Duomo in Pisa

The course will be held in the splendid frame of the Domus Comeliana, in Pisa. In the shadow of the Leaning Tower and surrounded by its green garden, our venue is the ideal place for fully concentrating on Periodontology but remaining in the heart of Tuscany.
